

Celebrate the New Year with Health Talents International!

...with a life-changing gift before 2010 comes to a close!

Health Talents has recently enhanced its online giving options to include American Express, in addition to MasterCard and Visa. Follow the link below and make your one-time gift or schedule regular gifts on a monthly, quarterly or annual basis. *Read on to learn about some life changing opportunities.*

Leche for Life

Leche (milk) for Life is a pilot program scheduled for implementation in the second quarter of 2011. **Leche for Life** is designed to address chronic malnutrition and developmental stunting from the womb to five years of age by providing vital nutrients and protein, in the form of vitamins and milk to impoverished families, for only \$15 per month. This pilot program was approved by our Board of Directors in early December at the request of our medical team in Guatemala. Within days of approval, ABC News featured a news segment discussing the very problem we aim to address:

<http://abcnews.go.com/Health/malnutrition-severe-stunting-guatemalan-children/story?id=12381731&page=1>

Leche for Life will not only provide for the families nutritional

needs, but will include a strong educational program and require a commitment from the family, their local church and community volunteers.

Health Talents is seeking twenty sponsors for the pilot phase of this program at \$15 per month. You may contact Rick Harper at HTIRick@aol.com for more information.

If you'd simply like to provide vitamins, a \$420 gift will provide 25,000 children's vitamins or \$400 will provide 15,000 prenatal vitamins.

Water for Life

The water filter displayed below is a gravity fed system that provides up to ten gallons of pure, drinkable water every twenty-four hours.

The majority of our ABC families do have access to water, though on occasions it means they carry it a short distance. However, almost none of them have access to pure drinking water unless it is purchased. These systems can be placed in a home for \$50 and are capable of removing 100% of all parasites, 99.99% of pathogenic bacteria, and meet US standards for safe drinking water. They are so effective you can take water from a lake, pond or stream and drink with confidence after filtering.

We believe this is an excellent way to improve the health of our children in the ABC Program and the entire family will benefit. If you would like to make sure you child's family receives a water filter, please send a gift of \$50 to Health Talents International, PO Box 8303, Searcy, AR 72145 or make an online donation, and we will insure that a unit is delivered to the family and provide the necessary training.

PRAYERS FOR THE HTI FAMILY

Dr. Benny Cleveland asks for prayers for his wife, Becky, who has had to enter a rehab center. You may send Dr. Benny a note at this address: brc2060@aol.com

We always need and appreciate "**undesigned gifts**" that support our general operations. ***Won't you consider making a donation before the end of the year and celebrate God's creation with the Health Talents family?***

All of us at Health Talents, both in Guatemala and the United States, thank you so very much for everything you do to support this ministry. Thousands and thousands of people have been blessed because of the work of Health Talents. May God bless you as we go into the New Year.
